

## Campaign to Aid Chilean Earthquake Relief Efforts

---

*"The devastation was enormous - more than you can imagine. My company, Oikos, Chile, knew we could make a difference. Our SCD Probiotic product, Oikos Versal, was donated to the government and was used immediately in cemeteries, in schools, in eating areas to help control the odor of decay and the spread of disease. Your contributions to this campaign will be so very much appreciated. Thank you on behalf of the Chilean people."*

*Lorena Sepulveda;  
Oikos, Chile LLC;  
resident of Santiago, Chile*

**Why:** The Chilean earthquake occurred off the coast of the Maule Region of Chile on February 27, 2010, at 03:34 local time, rating a magnitude of 8.8 and lasting 90 seconds. Six Chilean regions (from Valparaíso Region in the north to Araucanía Region in the south) that, together, make up 80% of the country's population, were heavily affected.

The earthquake has caused hundreds of deaths and destruction on a massive scale; relief efforts will continue for many months. They need our help in so many ways. Providing probiotic products to help control odor and restore the ecological balance in the impacted areas is a very effective way we can make a significant difference.

**How:** SCD Probiotics, Ecological Resources (Oikos, Chile) and The Earth Organization have partnered to help the people of Chile through providing probiotics to help deal with both environmental and sanitation issues created by this devastating quake. SCD customers and friends, and The Earth Organization's members and supporters, are asked to make a tax-deductible contribution to The Earth Organization, towards these efforts. SCD Probiotics (USA) will match all monetary contributions with donated products, and with the help of their Miami-based partner, Ecological Resources, will cover shipping costs to Chile. Lorena Sepulveda and her team are on the ground in Chile, are ready to orchestrate the distribution and application of the probiotics to hard-hit areas.

### **Contributions should be sent to:**

The Earth Organization  
4312 Talofa Avenue  
Toluca Lake, California 91602  
USA  
Email: [Presintearthorg@aol.com](mailto:Presintearthorg@aol.com)  
Phone: 818.406.6321

Please reference Chilean Campaign with your contribution.

### **When: April 1 - April 30, 2010**

Your contributions are needed now. We will begin shipping the products as soon as possible. Watch for photos and stories later this summer about the impact you will have made.

*An initial supply of donated product has already been used in impacted areas, with positive results. Because it has been so effective, the government has requested more. It will be used to handle odors, to help to prevent the spread of disease-carrying pathogens, for waste stream treatment, fly and mosquito abatement, and toxic water and soil cleanup, all of which are enormous problems under the current conditions.*

Thank you from the SCD Probiotics team, The Earth Organization, Ecological Resources, and, most importantly, the Chilean people for contributing to the effective improvement of living conditions for massive numbers of people so devastated by this horrible disaster.

If you have any questions please contact SCD Probiotics at [customerservice@SCDProbiotics.com](mailto:customerservice@SCDProbiotics.com). Please pass this on to your family and friends.
