

Harnessing nature's ability to restore personal health & the environment™

SCD Bio Klean™ is an all-natural, industrial strength cleaner containing powerful microbes, and their metabolites that break down grease, grime and dirt.

SCD Bio Klean is made using SCD Probiotics Technology and the principles of beneficial microorganism applied science. The proprietary blend of microbes repopulates the contaminated area with healthy bacteria to create a clean, healthy environment.

For examples of successful case studies from around the globe, please contact customerservice@SCDProbiotics.com

Many household applications suggest the use of a spray bottle for application. Transfer the desired amount of the SCD Probiotics product into a clean spray bottle and dilute according to instructions.

Tightly close the cap on the original SCD Probiotics bottle (this helps maintain the efficacy of the probiotics inside). Use the diluted amount in the spray bottle within 1-2 days for maximum effectiveness.

SCD Bio Klean is a concentrate and should be used as directed. Test on fabric in a discrete location prior to application.

Industrial Cleaning Applications

For Cleaning:	Dilution Ratio Probiotics : Water (Unless otherwise stated)	How to Apply*:
Drain Maintenance	Undiluted	Pour down drains 1 - 2 times per week.
Swamp Coolers and Dehumidifiers	1:100 (Probiotics : Water)	Wipe all surface and deposit areas with dilution as needed.
Sewer Line and Septic System Maintenance	1:500 (Probiotics : Waste)	Apply dilution in sewer lines every 2 weeks, or as needed
Ponds and Lagoons	1:2,000 to 10,000 (Probiotics : Pond Water)	Apply monthly by spraying over pond surface or introducing at various central and peripheral spots around pond edge.

* Contact the SCD Probiotics Technology Team for customized solutions or questions regarding the application process.

Commercial Building / Hotel & Hospitality Maintenance Applications

For Cleaning:	Dilution Ratio Probiotics : Water (Unless otherwise stated)	How to Apply*:
Linens	Undiluted	Fill washbowl/washing machine with warm water and add dilution as needed. Use ½ cup per load and reduce half detergent.
Food Preparation Surfaces and Processing Equipment	1:50 (Probiotics : Hot Water)	For daily use, spray with dilution and wipe clean. SCD Bio Klean may be used in conjunction with other natural, non-toxic cleaning solutions.
Grease Traps	1:50 (Probiotics : Grease)	For normal buildup, apply every four to six months to maintain low grease trap levels. Depending on the type or amount of build-up, SCD Bio Klean may need to be regularly applied.
Mold and Mildew	1:50	Spray dilution onto dry surface and scrub clean. For continuously damp areas, SCD Bio Klean may need to be applied on a regular basis.
Sinks and Counters	1:50	Wipe surface with dilution weekly or as needed. SCD Bio Klean may be used in conjunction with other natural, non-toxic cleaning solutions.
Degreasing Tile, Hardwood, Linoleum and other Hard Surfaced Flooring	1:100 (Probiotics : Hot Water)	Mop with hot water.
Hot Tubs	1:1,500	Apply every 2 - 3 weeks.

* Contact the SCD Probiotics Technology Team for customized solutions or questions regarding the application process.

Harnessing nature's ability to restore personal health & the environment™
