SCD Partners with EM-World Germany to Distribute Throughout EU Countries **Agreement provides exclusive purchasing rights**

(Kansas City, MO & Xanten, Germany)—Sustainable Community Development, L.L.C. (SCD) announces that it has finalized a distribution agreement with EM-World Germany to cover 24 countries in the European Union.

The agreement provides EM-World Germany with exclusive purchasing rights to SCD's product lines in Austria, Belgium, Cyprus (Greek part), the Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, and Estonia.

"EM-World Germany is an ideal partner for us", said Arthur Brookfield, Managing Partner, Finance & Operations. "Their existing customer base, network and EM experience will provide a great platform for introducing the SCD branding products in Europe."

In the beginning, EM-World Germany will focus on Xtra (EM)TM, EM-Farming® (the European equivalent to Efficient Microbes (EM)TM), and the Happy FarmerTM Kitchen Recycling System.

"This represents a key milestone in SCD's efforts to spread EM globally through an international distribution strategy", adds Matthew Wood, Managing Partner, Development & Technology. "Prior to SCD offering international distribution agreements, EM technology distribution has only been accessible through Japanese companies. SCD's system offers an alternative channel for EM and a diversity of product offerings in the marketplace. Ultimately the consumer will benefit from the healthy competition between American EM and Japanese EM through competitive pricing and greater awareness of quality and service. This is good news for SCD because quality, price and service are where we excel."

About EM-World Germany

EM-World Germany GmbH was founded in 2005 to import and distribute EM-based products throughout Europe by MikroVeda GmbH. MikroVeda has been distributing EM products and literature for over 7 years in Germany. MikroVeda has experienced staff capable of supporting customer's informational, technical and product supply needs. For more information, please visit www.em-world.de or www.mikroveda.de.

About SCD

Founded in 1998, SCD works with a natural microbial technology that utilizes beneficial and effective microorganisms (EM). SCD prides itself on being the premium provider of EM technology through quality, service and pricing. SCD's approach to introducing EM is two-fold. First, it distributes consumer products for human health and environmental sustainability. Secondly, it works with progressive, environmentally conscious companies to co-develop industry changing applications in the fields of human and animal health, crop agriculture and wastewater reclamation.
